

## **Alternative Fuels**

## MODULE

## About the Skill Module

This skill module covers the following topics:

- The hydrogen rainbow
- Electrolysis and Pyrolysis
- Biomass
- Ammonia

See demo online learning module

## **Target Audience**

This course is useful for senior and middle management and for anyone involved in the integration of low carbon power generation technologies into existing and future infrastructure.

## You Will Learn

Participants will learn how to

- Identify and explain the various methods of hydrogen production
- Describe the various hydrogen production concepts and practices
- Identify hydrogen transportation and storage, integrity, and safety issues
- · Discuss biomass fuel origins, and associated emissions

## **Product Details**

Categories: <u>Energy Transition</u> Disciplines: <u>Net Zero & Renewables</u> <u>Multi-Discipline Training</u> Levels: <u>Basic</u> Product Type: Individual Skill Module Format: On-Demand Duration: 1.5 hours (approx.)
