

Business Aspects of Global Warming and Alternative Energies

MODULE

About the Skill Module

This skill module covers the following topics:

- How big is big – how much hydrocarbon usage do we need to displace?
- Carbon net zero
- Energy costs

See demo online learning module

Target Audience

This course is useful for senior and middle management and for anyone involved in the integration of low carbon power generation technologies into existing and future infrastructure.

You Will Learn

You will learn how to:

- Gain an insight into how global business is affected by climate change policies
- Quantify the impact of CO2 reduction and the predicted infrastructure requirements, through the lens of power generation
- Describe the Life Cycle Assessment (LCA) process
