Many employers struggle with limitations on their training resources, yet the need to stay up to date with safety and regulatory mandates is critical. Knowledge gaps are between what your workers know and what they are required to know for their jobs. And knowledge gaps increase the risk to safety and compliance. But what can you do to reduce the risk and eliminate gaps?

With over 50 years of experience in compliance, instructional design, and knowledge transfer technology, we have developed an entire library of online courses to give your employees the knowledge and skills they need to do their work safely, improving preparedness and the confidence to act in the event of an incident or injury.

Easy-to-use web-based courses available anytime, anywhere!

Quickly identify knowledge gaps & generate pathways to 100% proficiency.

Achieve compliance goals with compliance focused management.

Reduce time-to-proficiency, refresher training, & improve onboarding.

Eliminate expenses of classroom scheduling, travel, & instructor fees.

PetroSkills RDC Solutions is an IACET Accredited Provider. Learners may earn Continuing Education Units for ePilot eLearning courses successfully completed.

Respiratory Protection
Hearing Protection
Confined Space Entry
Portable Fire Extinguisher
Benzene
Hazard Communication
