

Alternative Fuels

MODULE

About the Skill Module

This skill module covers the following topics:

- The hydrogen rainbow
- Electrolysis and Pyrolysis
- Biomass
- Ammonia

[See demo online learning module](#)

Target Audience

This course is useful for senior and middle management and for anyone involved in the integration of low carbon power generation technologies into existing and future infrastructure.

You Will Learn

Participants will learn how to

- Identify and explain the various methods of hydrogen production
- Describe the various hydrogen production concepts and practices
- Identify hydrogen transportation and storage, integrity, and safety issues
- Discuss biomass fuel origins, and associated emissions
