

Introduction and Overview of Development Geology

MODULE

About the Skill Module

This skill module introduces exploration, production cycles, and field development phases from discovery to abandonment.

[See example Geology eLearning module](#)

Target Audience

Reservoir, development, and exploration geologists; geophysicists; petrophysicists; log analysts; petroleum engineers; and experienced technicians.

You Will Learn

- The exploration/ production cycle and field development phases
- How geologic properties impact field performance and reservoir energy
- Reservoir characterization properties needed to predict field behavior and optimize field development
- The evolution of reservoir description requirements as the field development matures

Product Details

Categories: Upstream

Disciplines: Geology

Levels: Basic

Product Type: Individual Skill Module

Format: On-Demand

Duration: 2.75 hours (approx.)

\$395.00
