

## Risk Analysis and Inherently Safer Design Fundamentals

### MODULE

#### About the Skill Module

This skill module builds on risk analysis and inherently safer design from the Process Safety Risk Analysis and Inherently Safer Design Core skill module. It includes an in-depth look at each of the topics listed and two interactive sessions.

[See example Process Facilities eLearning module](#)

#### Target Audience

Facilities/process engineers, as well as engineers and operations staff involved in process safety and asset integrity.

#### You Will Learn

Participants will learn how to:

- Select and apply common methods of risk analysis
- Identify opportunities for use of ISD at different stages of facility lifecycle

#### Product Details

Categories: [Upstream](#)

Disciplines: [Process Facilities](#) [Health, Safety, Environment](#)

Levels: [Foundation](#)

Product Type: Individual Skill Module

Format: On-Demand

Duration: 8 hours (approx.)

**\$795.00**
